MR. LEE MADE HAPPY.

Former Chief Engineer of the Southern at this Place the Recipient of a Watch and Gold Headed Cane.

On hearing of Mr. C. W. Lee's return yesterday from Florida, on a short visit to his family, his many friends of the mechanical department of the Southern Railway at this place invited him to meet them at the company's shops for a general handshake. On arriving at the shops Mr. Lee found the rooms full of his former associates in the mechanical department. After mingling for a short while with the men, he was much surprised when his former chief clerk, Mr. C. Y. Scott arose and in a short but well chosen talk, presented him with a handsome $110 watch, as a slight token of the esteem in which he is held by the men in the department over which he was, for a long time, the head.

Mr. Lee, although taken by surprise, in accepting the watch made a very happy speech. He assured the men of his esteem for them, and said that if he could ever be of service to them he would.

This morning he was the recipient of a handsome gold headed cane, a present of the few remaining mechanics of the old Salisbury shops, of which for many years he was master mechanic. The cane was presented by Mr. T. Robinson, who came from Salisbury on this special mission.

Mr. Lee will return tonight to Florida, and will shortly move his family there.

RECOMMEND SCHOOL PLAN

Advice to the Legislature by the Committee of the Teachers' Assembly

The Plan Just Completed and Put Into the Hands of the Legislative Committees on Education, Contemplates a thorough and Most Important Change in the School Law Looking Toward an Improvement In the Matter of Supervision.

[The following paper has just been completed and put into the hands of the Legislative Committees on Education. It has not before been published by any paper, having just been made ready. It is an exceedingly important document and challenges the closest scrutiny.]

Gentlemen of the General Assembly of North Carolina:

As members of the Educational Committee of the North Carolina Teachers' Assembly, we have been instructed by that body, as its representatives, to report to you the changes which we think should be made in our present school law, as well as to submit for your consideration necessary new legislation on the subject of public schools.

The Committee held its first meeting in Raleigh during the session of the North Carolina Association of Academies and sought and received the advice and suggestions of that body. It has earnestly sought information, counsel and suggestions from many available sources.

After careful consideration and full and free discussion, the Committee have unanimously agreed on the following recommendations, which they beg leave to submit for your thoughtful consideration.

J. Y. Joyner, Chairman, State Normal and Industrial College; L. L. Hobbs, Guilford College; J. C. Horner, Horner School; J. A. Butler, County Supt. Iredell County; J. L. Foust, Supt. Schools of Goldsboro; C. H. Mebane, Catawba College; W. H. Ragsdale, Greenville Academy; J. T. Aldermen, Supt. Schools of Henderson; Chas. L. Coon, Secretary, Supt. Schools of Salisbury.

RECOMMENDATIONS.

1. Let the term "County School Directors" be changed to "County Board of Education" wherever it occurs in the preseet school law.

2. Let every member of the County Board of Education and the County Superintendent of Schools have authority to administer oaths as to census returns, reports of teachers and other matters relating to the duties of subordinate school officials.

3. Let the District Committees be abolished and let their powers be vested in Township Trustees, three in number.

4. Let the Township Trustees employ no teacher for any school until they shall have first consulted or conferred with the County Superintendent of schools relative to the fitness of the teacher proposed to be employed for the particular work of the school applied for.

5. Let the Township Trustees have the power to designate one of their number to take the school census of each school district in their respective townships and provide for the payment for this work out of the county school fund, at $1.00 per day.

6. Let the Township Trusteess meet at such times and places in their respective townships as may be necessary for the employment of teachers for their schools. But let no meeting be held for such purpose until due notice in writing has been given at three public places one week prior, and let no teacher be employed by the trustees except at such times and places and unless his or her application for a position as teacher shall have been filed in writing with the trustees. (See p 19 of Laws of 1899.)

7. Let no teacher be dismissed from service as a teacher, except for cause, at a regular or called meeting of the trustees, of which meeting due notice shall first have boen given the teacher, accompanied with a written statement of the charges preferred. Let the teacher be heard relative to the charges, let the verdict of the trustess

SERMON TO JUNIORS.

Rev. Mr. Hackney Preached to a Large Body of the Members Yesterday.

Reported for The Telegram.

Notwithstanding the muddy streets on the Southside and the inclement weather, about forty members of Greensboro Council, No. 13, Jr. O. U. A. M., and several visiting brothers assembled at Junior Hall yesterday morning and marched in a body to Southside Baptist church, where a special sermon was preached to the Juniors by Rev. J. A. Hackney at 11 o'clock.

Those who were so fortunate as to be present say it was a most appropriate sermon and was highly enjoyed by all who attended. Mr. Hackney took for his subject the three underlying principles of the Order—virtue, liberty and patriotism. His text was John 8: 36, "If the Son therefore shall make you free, you shall be free indeed."

The first great principle of Juniorism, he said, is found in the life of Christ. He taught liberty. He was the great Councilor. The teachings of the Jr. O. U. A. M are not of recent origin. The order among other things believes in a republican form of government, the foundation for which commenced at the manger of Judea. To this form of government we are indebted for our liberty as American citizens.

Here the speaker gave a short history of the Juniors; where and when the first Council of this order was organized and how the organization has grown throughout the United States since 1849.

He dwelt at length on one of the order's pet objects—the reading of the Bible in the public schools. As citizens and Christians there are some things it is our duty to ask our lawmakers for, and we should not hesitate when duty demands it, to lend our efforts in the proper direction along this line. There are some men holding responsible positions of trust in North Carolina and who wield no small amount of influence, who would like to see every Bible taken from our public schools and sectarian tracts substituted in their place.

The Juniors fight foreign immigration and are bitterly opposed to the hordes of illiterate and criminal paupers that are dumped on our shores each year from the old world. Such people are a curse to the religious, moral, political and financial welfare of our republic. The votes of the foreigners are easily bought and are usually cast detrimental to a free government and against principles taught in God's word. Statistics show that three-fourths of the criminals in our penitentiaries are foreigners; two-thirds of the people that fill our poor houses are foreigners, and two-thirds of our pauper population are of this class. If it wasn't for the foreigner, the array of labor against capital would be a thing of the past. Immigration is the father of more vice than other one thing in the United States today.

At the close of his remarks Mr. Hackney said he did not know how many of the members of the order in his hearing were Christians, but made an urgent and feeling appeal to those who had not yet taken Christ as their Saviour, and said he hoped the members of the Jr. O. U. A. M.—the men he now called brothers, would be brothers with him in Christ Jesus, and that they all might meet him in that council above.

Robbed the Odell Hardware Co.

Late Saturday afternoon a small white boy, Reuben Cable, was observed stealing knives at the store of the Odell Hardware Co. One of the clerks caught him and he was handed over to the police. He put up a pitiful story of his father and mother being dead, but a search revealed the fact that his parents lived out near the Normal. When caught he had in his possession several dozen knives.

At the request of Mr. C. H. Ireland the boy was set free.

Awarded $900.

In case of Nunnally vs. Southern Railway Company the jury staid out until late Saturday night and finally brought in a verdict of $900 for the plaintiff. Hon. Chas. M. Stedman was attorney for the plaintiff and R. R. King for the defendant.

THE GREENSBORO LICENSE TAX.

GENERAL GLENN PUTS THE BILL THROUGH THE SENATE.

Makes the Tax Between $1,000 and $2,500—The House Went to Work This Morning at an Unheard-of Hour—Solicitor Pou Has Resigned.

Special Dispatch to The Telegram.

Raleigh, Jan. 29.—Senator Glenn of Guilford, today introduced a liquor license bill drawn by the city attorney of Greensboro under the direction of the aldermen, fixing the license tax at not less then $1,000 nor more than $2,500.

Senator Gleen thinks that this, high license, is the solution of the liquor question all over the State. The bill at once passed all its readings in the Senate.

In the House.

Representative Winston introduced a bill to allow the Governor to employ counsel to defend State election officers indicted in Federal courts, also a bill to restore to the State Board of Education its power to select school books.

Mr. Willard introduced a bill to make the corporation commission a board of State tax commissioners for the special purpose of getting at personal property and real estate.

The House met at 7:30 this morning, which is the earliest meeting on record. Forty-five members were present.

The bill passed the House allowing High Point to issue bonds.

Congressman-elect E. W. Pou resigned as Solicitor today.

Warren Elliott, of the Atlantic Coast Line, was here today and submitted a request to the Governor in settlement of the $10,000,000 tax assessment case. The Governor will send a message to the Legislature.

FROM THE WIRE TODAY.

The steamer Holland has been wrecked near Rottendam and sixteen persons drowned.

The court in New York today ordered the Goulds not to pay the cash demanded in the suit of the London bric-a-brac dealer, a creditor of Count Boni Castellane.

Geo. W. Howard pleaded guilty of bigamy in Brooklyn and was sentenced to two years and ten months in Sing Sing.

The Crown Prince of Germany was this morning invested with the order of the Garter, by King Edward at Osborne House.

Storms are raging along the coast and inland in England, and widespread damage is reported.

It is stated in official circles in London that Lord Salisbury feels that his work is ended with the Queen's reign and will retire soon and Lord Balfour will become premier.

A big surprise was sprung this morning when George J Kerr was brought into court at Paterson, and on advice of council pleaded guilty to the indictment of assault on Jennie Rosschieter. The plea was accepted by the public prosecutor. This means the indictment of murder against Kerr will not be prosecuted.

Three Men Killed.

By Wire to The Telegram.

New York, Jan. 28.—Three Italian laborers were killed in a collision on the West Shore Railroad at Wechaken this morning. The incoming passenger train ran into the rear of a gravel train, smashing several cars and seriously injuring 15 passengers. The passenger train had just come through a tunnel when it went on the main track and struck the gravel train on a siding. The laborers were sleeping in bunks in the last car of the gravel train. The engineer and fireman of the express jumped in time to escape injury.

MRS. NATION WORKS IN TOPEKA

SALOON HEEPER'S WIFE ATTACKS HER WITH A BROOM.

Mrs. Nation Says a Broom is Not a Circumstance to Rawhides, Rocks and Rotten Eggs.

Topeka, Kan., Jan. 26—Mrs. Carrie Nation caused a great flurry among the saloon-keepers of Topeka, tonight, and as a result was roughly handled by a mob. Mrs. Nation arrived in Topeka at 6:40 o'clock, and immediately hunted up a newspaper reporter, with a request that she be shown some of the leading saloons of the city. Two newspaper men volunteered to pilot her around. She said she did not wish to begin a smashing crusade, but wanted to talk to the liquor dealers. The keepers of the saloons had been apprised of her intentions, and when she arrived at Ed Myers' "joint," on Kansas avenue, she was confronted by the wife of the proprietor, who rained blow after blow on her head with a broom stick while Myers stood by and encouraged the effort. By this time a large crowd had gathered, among whom were numerous sympathizers of Mrs. Nation. Nobody attempted to interfe e, and soon Mrs. Myers stopped her assault. Mrs Nation said she was not hurt by her experience in the least.

"What does a broom stick amount to," she inquired, "to one who has been used to rawhides, rocks and rotten eggs? That woman should be immediately arrested, though. Where is an officer?"

A policeman then appeared on the scene for the purpose of protecting Mrs. Nation. He then commanded the mob to stand back and started up the street with Mrs. Nation, followed by hooting, jeering rowdies, who were sympathizers with the joint-keepers.

Mrs. Nation at last found refuge in the editorial rooms of The Topeka Capital, where the crowd was not allowed to enter. Mrs. Nation then inquired where she could go to swear out a warrapt against the woman who assaulted her. Policeman Luster, who was present, volunteered to take her to the city attorney's office. As Mrs. Nation and the policeman stepped from the front door of The Capital building, the crowd which had been waiting in the street surged toward her. The policeman instantly drew his pistol and shouted above the uproar: "I am here to protect this woman and I will shoot the first man who makes a move toward her. Stand back, you villains!"

The crowd fell over each other getting out of the way, and Mrs. Nation proceed to the office of the assistant city attorney, where the warrant was sworn out. the crowd attempted to enter the office building, but was kept away by the policemen with drawn pistols.

Mrs. Nation then addressed the mob for a few moments and they gave her attention. She gave an explanation of her action and said she was a law-abiding citizen. Whenever she raided a joint, it had no rights. Chief of Police Stahl is an ardent temperance worker and he will order his officers to protect Mrs. Nation from mob violence whenever necessary. She will deliver an address tomorrow night in one of the largest churches in the city.

DR. HOGE'S HABITS.

Most Irregular Man in the World, Yet Lived to 80 Years.

Danville Register.

There is a wide difference of opinion among people as to the habit of regularity. Quite a number of people believe in having a certain hour to retire, to get up and for meals, and we believe this class is in the majority. A gentleman who has made a study of the habit custom, however, regards it as a piece of folly. He says: I have had the advantage of regular habits preached to me all my life, but my own have always been irregular, both from choice and necessity, and I have always enjoyed excellent health. The system becomes accustomed to habits which are regularly irregular as well as those which are simply regular. I never knew a man with more irregular habits than the late Dr. Moses D. Hoge, the distinguished Presbyterian minister of Richmond, yet he enjoyed excellent health up to his death, at the age of 80, which was the result of an accident. He made it a rule never to take breakfast at the same hour twice in succession. One morning he would brekfast at 7 and the next day at 10. Frequently he would go without any breakfast. He was just as irregular in his other meals. He took exercise as he felt inclined, and if not he would take life easy by the use of a rocking chair. He had no rules as to diet. He would drink wine on occasion, like all the old-school ministers, although he was a model of temperance. He was a coffee fiend and used tobacco. He had no regular hour for going to bed, and would often sit up all night. When he did this he invariably smoked half a dozen strong cigars and drank a cup of strong coffee. Some years ago he made a tour through the Holy Land with a large party. Many of the party who were what are ordinarily called creatures of habit were made sick by the irregular habits of travel. Dr. Hoge, however, was never ill a moment.

"The same thing is shown to be true in an army, where the city men always enjoy better health and exhibit more endurance than the men from the country. It is simply due to the matter of habit. The country men are creatures of regular habits, while as a rule the city men are not, and therefore they are not as easily knocked out by the irregularities of a campaign as their fellow countrymen"

be duly recorded in their record book, and let the teacher have a right of appeal to the County Board of Education

8 Let each member of the Board of Township Trustees be expected to visit every school in his township at least once annually while the schools are in session.

9. Let all appeals from any action of the Township Trustees be first presented to the County Superintendent of Schools, who shall decide such appeals. Let his decision be valid, until revoked by the County Board of Educatios.

10. Let the County Superintendent of Schools be required to give all his time to the work of supervision of teachers and trustees and to the other duties of his offices. Let the County Board of Education be required to provide him an office at the county seat. Let him be required to visit all the schools of his county or counties, while in session, at least once each year, if possible.

11 Let the County Superintendent of Schools be authorized, empowered and required to call the teachers of the township together at convenient times and places in teachers' meetings at least once each month during the session of the schools. Let all public school teachers be required to attend these teachers' meetings. Let the County Superintendent of schools be prohibited from signing the voucher of any teacher who fails to attend these meetings, unless providentially hindered.

12. Let the County Superintendent and the County Board of Education be given the power to make all needful rules and regulations, governing the conduct of teachers and pupils relative to attendance, discipline, tardiness and general government of the schools.

13. Let the salary of no County Superintendent of Schools be less than $500 per annum. Let the County Board of Education of any county be given the power to pay the County Superintendent of Schools as much as 5 per cent. of the funds used in the actual running expenses of the schools under his supervision.

14. Let two or more counties be given the privilege of uniting their school interests and employing one County Superintendent of Schools for the counties so combining. Let there be provision for joint meetings of the County Boards of Education of such counties for election of the Superintendent. Let the law provide for separate times for meeting of boards in such counties as combine, so that County Superintendent may attend meetings in all the counties under his supervision.

(Suggested that this provision may be made compulsory upon a small county where 5 per cent. of the school fund does not amount to $500. Sec.).

Let joint boards determine salary of Superintendent and how much of it each shall pay and how much time he shall give to supervision in each county.

15. Make Section 15 of the present school law read:

"The county board of education or the joint boards of two or more counties shall on the second Monday in July, 1901. and bi-annually thereafter, elect a County Saperintendent of Schools, who shall be at the time of his election a practical teacher or who shall have had at least two years experience in teaching school. And no person shall exercise the duties of said office, who does not hold a diploma from some reputable college, or who does not hold a first grade teacher's certificate or who does not hold a certificate of fi ness issued by the State Superintendent of Public Instruction upon the recommendation of a State Supervisor of Education. Said superintendent must be of good moral character and liberal education, and shall hold his office for a term of two years from the date of his election and until his successor is elected and qualified Immediately after the election of the County Superintendent of Schools the chairman of the county board of education shall report to the State superintendent of public instruction the name, address and experience of the person elected, and the person elected shall report to the state superintendent as soon as he shall have qualified the date of such qualification. Provided, in case of vacancy by death, resignation or otherwise, the county board of school directors shall fill said vacancy.

16. Let there be a number of State Supervisors of Education, not more than five, elected for four years by the State Board of Education, to receive an annual salary of $1,500 and not more than $500 for necessary annual expenses, to be paid out of the general school fund.

17. Let the State Supervisors of Education have under the direction of the State Superintendent, general supervision of the County Superintendents and their work, to hold conferences with one or more County Superintendents at such times and places as may be appointed by the State Superintendent for the direction, examination, and stimulation of the work of the County Superintendents; to hold teachers' meetings in the various counties as well as institutes and other educational meetings to promote the cause of public education; to outline and prescribe courses of study for the public schools of the State and courses of study and reading for teachers and County Superintendents; to visit the counties of the different sections of the State to observe the work of the schools and to see that the County Superintendents are having the provisions of the school law and the details of the course of study for the schools and the courses of reading and instruction for teachers properly carried out and enforced; to have the power and the duty to prepare and to send out uniform examinations for teachers; to have the power to grade all examination papers of the teachers or to prescribe how it shall be done by the County Superintendents; to have power, after one year from date of the ratification of this Act, to prevent any teacher from teaching who does not hold a certificate issued under their direction, except such teachers as may hold a life license or a State certificate; to do such other educational work and observation as the State Superintendent may direct, and to make an annual report to the State Superintendent embodying the results of their work for the year.

MONDAY, JANUARY 28

A DEFINITE PLAN.

Long before the solemn promises of the Democratic party to increase the public school facilities of the State, the friends of education were asking themselves how this increased efficiency should be accomplished after the party had moved up to the point of making its pledge and a Legislature had assembled with the full determination to carry out that pledge. There is not a doubt but that the General Assembly is now ready to take such steps as are necessary to put the school system upon a progressive and adequate basis. But the question now is, how shall that be done? All the friends of the cause have recognized from the very beginning that increase of funds alone would not do the work. The mere addition of money without a change and an improvement of the system would but make the present system a more tempting bait for the place seekers and the local politicians, and result only in a greater scramble for the money, not bring an additional child to the schools, and scarcely give any one of those already attending better instruction. There is not today, this side of Pandemonium, a more chaotic thing than the present public school system of North Carolina. Every teacher, committeeman, and county superintendent is a law unto himself, absolutely without direction, purpose, system or object. A mere increase of money cannot alter this. Then, what?

Today we present the only plan that has so far been devised. It is that suggested by the committee appointed for the purpose by the Teachers' Assembly. This plan represents much toil and thought on the part of the committee. Each phase of the subject was investigated separately and minutely. The committee sought help, advice and suggestion from all sources both in and out of the State. They took into consideration things as they are, not as they would like them to be. Not one of the members of the committee but who is an intensely practical, business-like school man. Their combined experience in working directly in or with the public schools amounts to over fifty years, and no one can say they are dreamers or theorists. We therefore take it that this plan is so good that the Legislative committees can discard it only by substituting a better one calculated to accomplish the same definite objects, upon which we all no doubt agree.

What are those aims? They are organization, uniformity, co-operation and efficiency in the system. Without these there is no hope of building up the system into one that will accomplish the education—rudimentary education—of the people. We repeat that mere money will not secure these. What will? The committee thinks that its plan will secure them. We are not sufficiently acquainted with the details of the work to say that it will, absolutely in all details, but certainly the burden is now upon the Legislative committee to substitute a better plan if this one is turned down.

First, says the committee, the increased efficiency of the teacher is necessary.

Secondly, this can come only through the increased efficiency of the county superintendency.

And, lastly, this can come only by the greater efficiency of the State supervision.

The plan provides for these three objects, and as necessary following, a greater respect for the schools and a large increase in attendance. The plan of supervision is similar to that enjoyed by city schools, but is provided at a much less percentage of cost.

It is current opinion that the Legislature will appropriate in the neigborhood of $300,000 for schools. The committee bases its plan upon this assumption. This amount given without some such plan that will guarantee greater efficiency in the schools, will prove unpopular, because there will not be a corresponding increase of usefulness of the schools. The people will say that the great increase of money has brought no great increase of work, and the magnificent sentiment now in existence in favor of better public schools, longer terms and more money, will be injured.

From Mr. W. I. Underwood's correspondence from this city to the Charlotte Observer, The Telegram takes this item, all of which it confirms with pleasure:

Cards were received here today announcing the marriage of Mr. Archer Erle Scarborough, of this city, and Miss Eunice Wood, of Wadesboro, the event to be solemnized in the Wadesboro Methodist church on Wednesday evening, February 6th. Mr. Scarborough is on the staff of The Greensboro Telegram and is a young man of much promise. His prospective bride is an accomplished daughter of Rev. Dr. and Mrs. Frank H. Wood. She formerly resided in Greensboro and has many friends here.

ARMY TO HELP EDUCATE.

Bill Now Before Congress Provides for Military Instructors in Schools Desiring the Same.

It will be interesting to the male school children of the United States to know that the house has agreed to a bill introduced by Col. Marsh, of Illinois, which permits the president to detail in addition to the army and navy officers now authorized, retired officers and non-commissioned officers of the army and navy, as military instructors in the schools of the United States, where such instruction is authorized by the educational authorities and where the services of the instructors are requested. The only expense to the schools will be the cost of commutation of quarters of the officers.

The preamble of the act recites that as the national defense must depend upon the volunteer service of the people, the schools which shall adopt a system of military instruction are entitled to the assistance of the government, in order to secure to the United States such knowledge of military affairs among the youth of the country as will render them efficient as volunteers, if called upon for the national defense.

Col. Marsh said: "If this measure is adopted it will result in giving the youth of the country military training which will be valuable to the government in time of need."

He is confident the bill will be adopted by the senate.

Proposed Removal of the Papacy.

One of the Vatican organs suggests that the pope should migrate from Rome to Jerusalem, and out of the $4,000,000 saved by successive popes should buy from the sultan of Turkey such a large extent of territory as would insure the recognition of the papacy as a temporal power.

COTTON BOOMING.

Panic This Morning Occasioned by the Wild Rise of the First Hour.

New York, Jan. 28.--There was a panic among brokers on short cotton today. January cotton started the sensation with an opening price of 10.33. It boomed along the first hour until it was selling at 12 75, an advance of two dollars and fifty cents on the bale. The opening rise caused a stampede in the pit. It held the figure reached, while bedlamb raged on the floor of the exchange. The bulls showed no signs of backwashing and after the first hour the boast was made that cotton would be selling at fifteen cents, a price unheard of on this market. The price during the first hour showed an advance 265 points.

AN UP-TO-DATE WILL.

One That Was Inscribed on a Graphaphone in the Maker's Own Voice.

One of the wealthiest land proprietors near Smolenski, in Russia, died a few months ago, and after the funeral his heirs and attorneys began to look for his will. They fancied that this task would be merely perfunctory and that the document would be found among the other family papers, but, much to their surprise, they were unable to find the slightest trace of it. Every room and article of furniture in the house was then carefully searched, but the result was the same, and the only conclusion at which the heirs could arrive was either that no will had ever been made or that if one had been made it was destroyed before their kinsman's death, says a London exchange.

The missing document, however, was found a few days ago and in the strangest place imaginable. A young man was rambling through the house, and, happening to see a graphophone on a table in the library, he examined it to see if it was in working order, and finding that it was he put a record in it, which he supposed was that of some popular Russian song. What was his amazement, however, when instead of a song he heard the dead man's voice slowly recite the words of the missing will!

The heirs were promptly notified of this discovery and they lost no time in carefully examining the record containing the will. It was found to be flawless, and the question then arose whether such a will would be deemed valid by the courts or not. This question is now being discussed in the supreme court at St. Petersburg and the case is interesting all lawyers who have heard of it. Many think that the will will be pronounced entirely valid, and if so it may become a common practice for persons to use graphophones for the purpose of making their wills.

Benign paternal government is to be the general note of Soudan administration in the earlier stages of its reorganization, says a Cairo correspondent. Here are a few of the chief heads of the new code just promulgated: The importation, manufacture or sale of alcoholic liquor is prohibited. No person will be allowed to sell his land or to make loans at usurious rates. Even mortgages will be subject to formal authorization. Trade, industry and navigation are free, and every chieftain is a magistrate in his own district.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sore, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S.S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system all morbid, effete matter. A CONSTANT DRAIN UPON THE SYSTEM. When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. B. Talbert, Lock Box 25, Winona, Miss., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S. S. S., and it made a complete cure. I have been a perfectly well man ever since."

SSS is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and add to, rather than relieve your sufferings. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic.

Send for our free book and write our physicians about your case. We make no charge for this service.

For the Telegram.

Here, where the marges of the flood of years
Diverge and fade across the waters pale,
Shall mortal's faith in Thy sure promise fail?
When down the widening waste his vessel steers,
Wherefrom no home-bound sail,
With charts and tidings from those mists that veil
The vast deeps, ever nears,
While beacon after beacon swims by and disappears?

Distrust Thee now as fall the shadows o'er
The world, and one by one athwart the stream's
Dark breast the home-lamps shine with level beams,
Then dip below the foam for evermore
Their momentary gleams?—
Now, when, as the night-wind landward veers, it seems
He hears the eternal roar
Of distant surges breaking on time's ulterior shore?

Far inland, where from glen unknown, or cave,
Deep in the hollows of the mountains, spills
And swerves in silver loops about the hills
The river's earlier, clearer, purer wave;—
By banks where the tumult stills,
And flowers bloom, and ever the song-bird trills—
There might he little crave
Thy puissant arm to pilot his craft so frail, so brave!

But when, past the dread, hushed capes, his bark shall stand
To sea—in its vast swing shall sink and rise;
When drawn astern upon the horizon, dies
The light above the outmost shoals—what hand
Save Thine shall then suffice,
Through those uncharted oceans, neath those skies
No human sight hath scanned,
To hold its prow toward havens in that undiscovered land?

—Henry Jerome Stockard.

RECOMMEND SCHOOL PLAN.

(*Continued from Page 3.*)

Supervisor of Education be those of a County Superintendent, as set forth elsewhere in these recommendations; and, in addition, let him have the known ability to conduct educational meetings, administer school affairs and systems, and to arouse the people by public speech and other means on educational questions.

19. Let State Superintendent be given authority to have plans of suitable school houses prepared, and provide that no County Board of Education shall pay out of its public funds for the building of any public school house not built in accordance with such plans.

20. Let the following proviso be added to Section 20, page 15, of the laws of 1899:

"Provided; that the County Board of Education, at the request of the County Superintendent of Schools, may be called together by the chairman at other times for the transaction of business that must be disposed of for the welfare of the schools before the next regular meeting of the Board

21. Let Section 17, page 13, of the Laws of 1899, read as follows:

"It shall be the duty of the County Superintendent of Schools to examine carefully at the regular meeting in July of each year the census report and the sworn report of the teacher from each school in the county for the year next preceding, and after considering the number of children, total enrollment and average attendance and grade of scholarship, to fix the maximum salary to be paid to the teacher of each school for the current year. And the County Superintendent shall at once report to the township trustees the maximum salaries fixed for the different schools in their respective townships. The county board of education shall on the second Monday in January of each year apportion the school fund of the county to the various schools in said county so as to give each school in the county for each race the same length of school term, as nearly as may be for each year. Provided, That the County Board of Education before apportioning the school fund to the various schools shall reserve as a contingent fund an amount sufficient to pay the salary of the County Superintendents of Schools and per diem and expenses of the County Board of Education, allowance for insolvents, treasurer's commissions, incidental expenses of institutes, and other necessary expenses. As soon as the apportionment is made the county board shall post a statement at the court house door, showing the amount apportioned to the several schools in the county, and they shall also notify the school trustees of each township of the amount apportioned to their respective schools. The County Board of Education shall also furnish the treasurer of the county school fund a statement of the amounts apportioned to the several schools in the county"

22. Let $300,000, including the present special appropriation of $100,000, be appropriated for the public schools, so much thereof as may be necessary to secure a four months' school term in every school in every county in North Carolina to be directly appropriated for this purpose first, and the remainder to be appropriated per capita to the counties of the State.

23. Let the principle of local taxation be encouraged and stimulated, as it is evident that a four months' school term is insufficient for the education of the people of a great State, and the experience of other States and of communities in our own State teaches that the surest means of securing schools entirely adequate to the educational needs of each community lies in the stimulation of the principle of self-help through the adoption of local taxation.

24. Upon the joint representation of the teacher of any school and the township trustees, as much as five dollars might be expended annually at each school of the township for the purchase of text-books for the use of indigent children, the books when not in use to be kept by the Township Trustees as the property of the State. Let money be expended out of amount apportioned to the school. Let books be furnished upon recommendation of teacher and township trustees.

25. Let the monthly and term reports of teachers include the following, in addition to the items now required:

Number of children on census blank not attending any school this year..... —
Number children under 17 years of age not attending any school..—
State some causes why they do not attend:
How many families having children of school age did not send any of their children to school —.
How many families did.....—
State what personal effort you have made to get these children to attend school.
Number of children studying primary arithmetic.....—
Number of children studying intermediate arithmetic.....—
Number of children studying advanced arithmetic.....—
Number of children studying primary geography.....—
Number of children studying intermediate geography.....—
Number of children studying language lessons.....—
Number of children studying elementary English grammar....—
Number of children studying higher English grammar.....—
Number of children studying elementary history of N. C.....—
Number of children studying advanced history of N. C.....—
Number of children studying elementary history of U S.....—
Number of children studying higher history of U. S.....—
Number of children studying elementary physiology and hyg.—
Number of children studying advanced physiology and hyg...—
Number of children studying civil government.....—
Number of children studying Latin—
Number of children studying algebra.....—
Number of children studying higher English.....—
Number of children studying.....—
Number of children studying.....—

26. Let no teacher be employed to teach in the public schools who is not 18 years old. Prohibit a younger teacher from drawing pay for teaching public school. Let persons examined be required to give their age at nearest birthday Also let the County Superintendent keep a record of the names of all applicants for certificates who answer this question in the affirmative: "Do you intend to make teaching your profession?"

27. Let teachers be required to file with their registers at the end of the school term an accurate record of the promotion, advancement, and classification of every child attending the school just closed. Let State Superintendent instruct County Superintendents as to the best method of doing this and let all County Superintendents be prohibited from signing the teacher's voucher for his last month's salary, unless he is satisfied such record has been properly made out by the teacher.

Resolution.

Heartily agreeing with the spirit of the resolutions of the Association of Academies and the Association of City Superintendents of North Carolina, recently in session in Raleigh, we recommend as liberal appropriations as possible to all State institutions for higher education.

BARLOW MINSTRELS.

The great Barlow minstrels, composed of forty white artists, will be the attraction at the Academy Saturday, February 2nd. This company requires no introduction to the theatre-going public of this city. It stands today the oldest minstrel aggregation on the road, this being its sixteenth consecutive season under the old title. As time marches on and everything improves, so it has been with this company; each year brings new and up-to-daee songs, dances and marches. The first part is a revelation in minstrelsy, representing a bower of beauty in which are seated the whole strength of the company attired in rich silks and satins. Frank E McNish, Lew Baldwin, Harry Boyd, Charles Cartmell, Frank Horton The specialties include the Toledo Bros. in a European novelty entitled "The Crocodile and the Lizzard;" Bonelli Brothers, trick barrel jumpers; the Harmonic Quartette; Coburn and Baldwin, musical artists, a big song and dance at the "Frolics of the South" A grand street parade will be given by the full strength of the company.

A PALE-FACE GIRL

may be almost safely set down as wanting red in her blood. If subject to dizziness, fainting, shortness of breath on slight exertion, no doubt remains.

To want red in the blood is to fail of the good of one's food. Her food is not nourishing her. She needs a change.

The easiest change she can get, and one of the best, is Scott's emulsion of cod-liver oil.

It gives her the upper hand in the contest—her food has the upper hand now—she is pale no more.

We'll send you a little to try, if you like.

A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought that she must soon die from pneumonia, but she begged for Dr. Kings New Discovery, saying that it had more than once saved her life, and had cured her of consumption. After three doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c. and $1.00. Trial bottle free at C. E. Holton's drug store.

When threatened by pneumonia, or any other lung trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of having taken cold are noticed. It cures quickly and its early use prevents consumption. Howard Gardner.

COLD STEEL OR DEATH.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jauntice. He didn't count on the marvellous power of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price 50c at C. E. Holton's drug store.

LAND SALE.

By virtue of a Power of Sale contained in a mortgage executed on the 15th day of December 1891, by Charles S Lindley and wife Sallie Lindley to H. H. Cartland, guardian for W. M. Houston's children and duly recorded in Book 8 on page 737 in the office of Register of Deeds of Guilford Co., we will sell at public auction to the highest bidder for cash, at the court house door, on SATURDAY, THE 2ND DAY OF FEBRUARY, 1901, a certain lot or parcel of land situated in Morehead township, city of Greensboro, Guilford county North Carolina, adjoining the lands of Greensboro Land and Improvement Company and others, and bounded as follows:

Beginning at a stake or stone on north side of Morehead Avenue in the city of Greensboro, seventy-one (71) feet east of east side of Fulton street, running thence east along Morehead avenue seventy (70) feet to a stake or stone, thence north on a lane parallell to Fulton street one hundred and fifty (150) feet to a stake or stone, thence west paralell with Morehead avenue seventy feet (70) feet to a stake or stone, thence south on a line paralell with Fulton street one hundred and fifty (150) feet to the beginning, being all of lot No. 27 in Morehead sub-division as shown by a plot of the same as recorded in Book No. 53, page 55, etc., in the Office of Register of Deeds of Guilford county.

Returns to the Roads.

Yesterday afternoon Chief of Police Scott and Officer Weaver were taking a walk in Duplin and decided to pay a friendly visit to Susan Morehead, at whose residence on a recent Sunday several gamblers were arrested. On entering they found several negroes asleep in various postures, and on the bed one whose face seemed familiar. Upon inspection it proved to be one George Culbert, who some time ago stole an overcoat from Prof. E B. Broadhurst at the Lindsay Street Graded School, and for which offence he was sent to the county roads. He had served only a short portion of his sentence, however, when he effected his escape, and had since not been seen. The officers promptly handcuffed him and took him to the calaboose. He will be returned to the roads.

Several Petitions.

To the Editor of the Telegram:

Will you be kind enough to state in your columns that I also presented to the city aldermen, at their regular meeting last Friday night, petitions from the mothers, wives, daughters and sisters of Greensboro, asking that the question of license or no license be submitted to a vote of a white primary. Also a petition from the superintendents of the white Sabbath Schools of Greensboro asking that our city aldermen refuse to recommend any one for license to sell liquor in Greensboro. I ask this kindness at your hands simply that the signers of the petitions may know that I carried out their wishes, and from the fact of your report of the aldermen's meeting you mentioned only one petition, that of the white voters.

Yours truly,
